

Technical Program Manager

At Natzka, we're revolutionizing the decision-making process for our customers working with traditional data warehouse technologies. This ambitious goal is backed by the use of sophisticated proprietary algorithms and the most recent results from Artificial Intelligence. We are looking for a highly skilled Technical Program Manager to bring strong ideas, support and leadership to our engineering teams.

We value and promote personal initiative, clarity of thought, ability to learn, teamwork, accountability, and a striving for achievement. We collaborate in our offices in the city of Zurich, or remotely.

If that sounds appealing to you and you want to play a key role in a vibrant startup culture, please read on.

Responsibilities

- Together with the company management, you will be envisioning and designing the technical roadmap of Natzka's products.
- You will be ensuring the successful execution of the product vision by means of your technical savviness, by setting the right priorities, and through intra- and cross-team coordination.
- You will be inspiring the engineering teams as a trusted and respected leader that leaves extensive room for initiative to other team members.
- You communicate clearly and effectively with both technical and non-technical audiences.
- You will be managing project schedules and milestones, identifying risks and ensuring the quality of deliverables.
- You will be fostering a goal-oriented environment that swiftly adapts to change.
- With a firm grasp of the latest technological advancements, you will be paving the way for new ground-breaking technical initiatives and programs that expand the platform's feature set and improve its performance, scalability, maintainability, and robustness.

Requirements

- University degree in Computer Science or other technical field.
- Proven record of leading successful enterprise-level software engineering projects.
- Extensive experience in building data-driven SaaS products and their ecosystem.
- Excellent understanding of Cloud Computing and experience with the main Cloud providers.
- Excellent understanding of the Data Analytics landscape and of AI concepts.
- Eligibility for a Swiss work permit.
- Fluency in English.

We offer an attractive compensation based on experience and skills, flexible working hours, and training opportunities.

Please send your complete application to: Mr Patrizio Contu, CTO, (including CV with photo, references, education and qualification certificates) per e-mail: techlab@natzka.com

Please kindly note that we only accept applications from direct candidates, no recruitment agencies. Thank you for your understanding.
