

## Cloud Platform Engineer

We are looking for highly skilled Cloud engineers to join us and make an impact in our company.

You will be working with leading-edge technologies around Kubernetes and Cloud Service Providers. Together with the rest of the team, you will be designing and running our systems with a strong focus on scalability, reliability, security, and efficiency.

We value and promote personal initiative, clarity of thought, ability to learn, teamwork, accountability, and a striving for achievement. We offer to collaborate in our offices in the city of Zurich.

### Responsibilities:

- Help lead in delivering best-in-breed cloud services for our customers in line with the adoption of DevOps principles and practices.
- Deploy and configure production systems, focusing on automation, ease of configuration, reduction of human error, repeatability, and security.
- Collaborating with the engineering teams, helping to build secure, high-performing, resilient and efficient solutions.
- Engage in the design, collaborating with product owners and architects to ensure that solutions help our customers and achieve the desired business goals.

### Experience/Requirements:

- Degree in Computer Science or related technical/scientific discipline
- Hands-on operational experience with AWS, GCP, or Microsoft Azure, including provisioning, operation, and monitoring.
- Experience with Kubernetes and the ecosystem of Cloud Native tools
- Extensive IaC (Terraform, Crossplane) and Configuration Management (Ansible)
- Practical experience with a scripting language such as bash, PowerShell or python.
- Experience with GitOps technologies (ArgoCD/FluxCD)
- Understanding of DevOps and agile team methodologies
- Solid Linux, system design, and TCP/IP networking background
- Swiss citizenship or eligibility for a Swiss work permit
- Fluency in English

We offer an attractive compensation based on experience and skills.

Please send your complete application to Mr Andrzej Kozlowski, TPM, (including CV with photo, references, education, and qualification certificates) per e-mail: [techlab@natzka.com](mailto:techlab@natzka.com)

Please kindly note that we only accept applications from direct candidates, no recruitment agencies. Thank you for your understanding.
